

Rebecca Ross, LCSW works from a collaborative and social network-based model of responding to people in crisis. A student of the Institute for Dialogic Practice, her clinical orientation is informed by systems, feminist and narrative approaches to working with life's problems.

Krista MacKinnon, DipSSW is mental health recovery consultant in the capacities of peer support, education, community organizing, and family support. She is the CEO of an online education and support community for families experiencing mental health related distress. www.practicerecovery.com

Will Hall, MA, DiplPW is an internationally recognized therapist and mental diversity trainer who has himself recovered from a diagnosis of schizophrenia. Host of Madness Radio and founder of Portland Hearing Voices, his writing is widely published. www.willhall.net

Nazlim Hagmann, MD is a psychiatrist in private practice in NYC. Through her multi-cultural background and experience in the public psychiatry sector, she brings a complex and critical voice to psychiatry and has been a long time supporter of alternatives and the peer movement.

Beyond the medical model...

new visions of psychosis

**Transform extreme states using relationships and communication.
A training series for professionals, families,
people with experience of extreme states, and advocates.**
